ACTIVITY REPORT

DEPARTMENT OF MECHANICAL ENGINEERING

A seminar on “Awareness about Artificial intelligence and machine learning” by Mr. Ajinkya Sirsikar on 07.10.2022 .The session is organized for TY and B.Tech Mechanical Engineering students.

During the session Prof. Mr. Ajinkya Sirsikar focused on following points:

1. Machine learning is a subset of artificial intelligence that automatically enables a machine or system to learn and improve from experience.
2. It allows businesses to store, process, and analyze large datasets from various sources in a secure and efficient manner.
3. AI-powered systems can analyze real-time data from sensors, cameras, and other sources to make quick and informed decisions.
4. Machine learning is a subfield of artificial intelligence, which is broadly defined as the capability of a machine to imitate intelligent human behavior.
5. The goal of machine learning is to train machines to get better at tasks without explicit programming.
6. Machine learning helps the logistics industry optimize shipping and delivery routes, the retail industry personalize shopping experiences and manage inventory, manufacturers automate factories, and helps secure organizations everywhere.

ACTIVITY REPORT
DEPARTMENT OF MECHANICAL ENGINEERING

A seminar on “Importance of communication in day to day life” by Mr. Ramakant Kulkarni Director, Malgudi Institute of English Nanded. on 06.06.2022

Seminar was organized under MESA for SY, TY and B.Tech Mechanical Engineering students in B.Tech. Mech. Classroom.

(Signature)

During the session Prof. Mr. Mr. Ajinkya Sirsikar focused on following points:

1. Communication plays a vital part in building up a strong relationship across the world, either in organizational structure or outside of it
2. It is an essential pillar for people in sharing the ideas, delegating responsibilities, management of a team, building up a healthy relationship, etc
3. The communication process involves understanding, sharing, and meaning, and it consists of eight essential elements: source, message, channel, receiver, feedback, environment, context, and interference.
4. The four types of communication are verbal, non-verbal, visual and written communication.
5. Effective communication can help to resolve or avoid problems and/ or conflicts. It helps you connect with others and share ideas.
6. Effective communication clarifies information, reducing wasted time. Helps builds relationships, teamwork, and trust.

A seminar on “Importance and working of ERP in industry” by Mr. Shahid Shaikh DNS ERP Private Limited on 27.05.2022

Seminar was organized under MESA for TY and B.Tech Mechanical Engineering student in B.Tech classroom.

During the session Prof. Mr. Shahid Shaikh focused on following points:

- 1 Enterprise resource planning (ERP) is a software system that helps you run your entire business, supporting automation and processes in finance, human resources, manufacturing, supply chain, services, procurement, and more.
- 2 ERP software allows businesses to manage data and conduct other office functions (such as human resources) by use of coordinated applications that work cooperatively to maximize efficiency.
- 3 Two major advantages of ERP are improved communication and better collaboration.
- 4 A key benefit of ERP software is improved visibility into your workforce, assets, inventory, and more.
- 5 Its reporting and analytics tools provide a high-level understanding of how various resources are connected and used.
